PROFESSIONAL SUMMARY

Detail-oriented B.Sc. Information Technology graduate seeking an entry-level Data Analyst role. Skilled in SQL, MySQL, Microsoft Excel, Power BI, Python, and database management, with a strong interest in data cleaning, exploratory data analysis, visualization, and business reporting. Hands-on experience working with databases and developing data-driven applications. Strong problem-solving, analytical thinking, communication, and willingness to learn and apply data analytics techniques to real-world business problems.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Data Visualization, Basic Statistics, Reporting

Programming: Python, SQL

Python Libraries: Pandas, NumPy, Matplotlib

Databases: MySQL, SQL, Firebase Realtime Database

Data Visualization & BI: Microsoft Power BI, Dashboard Development, Charts and Reports

Microsoft Office: Microsoft Excel, PowerPoint, MS Office

Excel: Data Cleaning, Sorting & Filtering, Formulas, PivotTables, Charts, Lookup Functions

Tools: Git, GitHub, VS Code

Operating Systems: Windows, Linux Basics

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability

Research & Analytical Skills: Internet Research, Online Data Collection, Information Verification, Data Organization, Market Research Basics, Analytical Thinking, Attention to Detail

LinkedIn & Online Research: LinkedIn Research, Company & Professional Profile Research, Online Information Sourcing

PROJECTS

Employee Data Analysis & HR Analytics Dashboard

Jul 2026 – Aug 2026

- Tools: Python, Pandas, NumPy, Matplotlib, Seaborn, Sql
- Developed an Employee HR Analytics project analyzing workforce distribution, salary trends, experience, and attrition using Python, SQL, and Power BI.
- Cleaned and prepared employee data for analysis by handling missing values, duplicate records, and inconsistent fields.
- Conducted EDA to uncover growth, compensation, and retention patterns across departments and locations.

- Built SQL-based business queries and a Power BI dashboard to present HR KPIs for decision-making.
- Delivered key insights and recommendations for improving workforce retention and compensation planning.

Home Interior Designer Service – Web Application

Technologies: HTML, CSS, JavaScript, Firebase

Oct 2025 – Feb 2026

- Developed a web-based interior design service platform for customers and designers.
- Managed structured customer, designer, booking, and service-related data using Firebase.
- Implemented Firebase Authentication for secure user access.
- Integrated database functionality for storing and retrieving application data.
- Worked with application data during development, testing, and troubleshooting.
- Managed the project lifecycle from planning and development through testing and deployment.

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

Sant Rawool Maharaj Mahavidyalaya, Kudal | Mumbai University

Jun 2023 – Feb 2026

CGPA: 7.37

Higher Secondary Certificate (HSC) – Science (PCMB)

Oct 2022 - Feb 2023

Gulabtai Dnyanath Kanistha Mahavidyalaya, Vetore, Vengurla

Maharashtra State Board | Percentage: 71.20%

Data Analytics Course – Currently Pursuing

Present 2026

Pune, Maharashtra

CERTIFICATIONS

Diploma in Software Applications

Apr 2023 – Jun 2023

- MS Office
- Microsoft Excel
- PowerPoint
- English Typing
- Desktop Publishing
- Photoshop Basics
- CorelDRAW Basics
